Gossip of England Is Divided Between the Predicted Radical and Nation alist Rupture, Chinese Indennity Mrs. Langtry's Alleged Diamond Loss and Coming Fire Congress.

London, Sept 21.-There is no longer any uncertainty regarding one all-important point of the government's legislative programme. In entering office free from positive pledges, the Conservatives had an advantage over the Liberals, who were pledged to numerous fads, besides legiti-mate reforms. The suspicion that the strong Conscrvative majority would enforce reactionist measures was only a sus

Now it is confirmed by corresponde which has passed between Lord Cranbourne the eldest son and secretary of the prime minister, and his cousin, the Right Hon. A. J. Balfour, first lord of the treasury. This correspondence clearly indicates the decirion of the government in favor of meas ures looking to sectarian education. Mr. Balfour, referring to what are called volun-

"I am extremely anxious that something effectual shall be some to relieve the intol-erable strain to which these schools are subjected. This is the general wish of the party and of the government."

Ostensibly the correspondence of Lord Cranbourne brought incidentally to the notice of Mr. Balfour the resolution of the church parliamentary party to introduce a motion affirming that many parents are in favor of sectarian educational measure

in favor of sectarian educational measures. Realy the government's policy follows the lines which were expected to result from the Comervative triumph.

A tacit arrangement has been made with the English Catholics who supported the Comervative candidates in the recent elections, and this has been followed by the establishment of an entente with the Irish Catholic bishops. Under the latter understanding, the government expects to have the votes of seventy anti-Parnellites for its proposals in regard to sectarian education.

PREDICTED RUPTURE.

PREDICTED RUPTURE.

This would naturally be followed by a complete rupture of the alliance between the liberals, and the Irish nationalists. The rage of the liberals over the prospective capture of the national funds for purposes may be extreme, but meanwhile it is impotent.

The liberal press has not had time as yet to comment on the matter. The Speaker, however, to-day demands a response from men claiming to represent the party, and adds that the crisis is very serious, but that it does not fear the ultimate results.

Referring to the opposition of the Baltimore Sun to the ticket. Mr. Gorman said:

"The newspaper press is a great power in this country. Its freeded to criticise public servants and to chronicle passing events should never be disturbed, and I am glad to say that as a rule there are but few owners and publishers of newspapers who would deliberately misrepresent, and persist in vilifying public men.

"Occasionally there is a paper which permits itself to be led into disreputable conduct of that sort. Mr. Edwin F. Abell, of Baltimore, is the respossible owner and head of a great newspaper, which, in his father's time, and under his management for forty-odd years, was regarded as a mirror in which could be seen a truth'ul account of the daily occurrences of the people of the State, and a fair and just statement of current events as they affected individuals and the body politic.

"But for some years past he has used this paper to pour out his venom and abuse me. He has deliberately suppressed the truth wherever the truth would have inured to my benefit.
